Dear Sir/Madam,

Your kind support for school meals of children can significantly transform their lives. The freshly cooked, hot, healthy, and locally palatable school meals provided by Akshaya Patra is a potential intervention in ensuring health and education of children. These meals are crucial for children belonging to challenging socioeconomic backgrounds.

Your Kind Support for Mid-Day Meal have

- Open the gates of school for children
- Boost their health with adequate nutrition
- Support regular schooling & ensure completion of education
- Prepare children to be assets of India

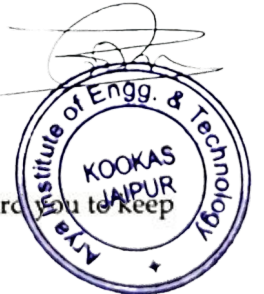

We therefore appreciate and recognize your contribution from your college and look forward to you to keep serving for humanity and spirituality in coming years ahead.

Thanking you,

Yours in the service of underprivileged children

1. **Outcome of Activity:** AIDS, or Acquired Immunodeficiency Syndrome, is a complex illness with a wide range of complications and symptoms. AIDS is the final stage of HIV. When individuals reach this stage, they are at high risk for opportunistic infections due to their badly damaged immune system.

Many people who are HIV positive do not have symptoms of HIV infection. The virus can sometimes cause people to feel sick, but most of the severe symptoms and illnesses of HIV come from the opportunistic infections that attack the damaged immune system. It is also important to recognize that some symptoms of HIV are similar to common illnesses, such as the flu or respiratory infections. Signs and symptoms commonly seen in the early stages of HIV include: Fever, Chills, Rash, Night sweats, Muscle aches, Sore throat, Fatigue, Swollen lymph nodes, Ulcers in the mouth. Infected individuals can have the virus for up to 10 years, sometimes longer without showing signs or symptoms.

In this event give the awareness about the Aids protection through the Poster and Debate Competition.

6. **Outcome of Activity:** The idea of an International Day of Yoga was first proposed by the current Prime Minister of India, Narendra Modi, during his speech at the United Nations General Assembly (UNGA), on 27 September 2014. He stated Yoga is an invaluable gift of India's ancient tradition. It embodies unity of mind and body; thought and action; restraint and fulfillment; harmony between man and nature; a holistic approach to health and well-being. It is not about exercise but to discover the sense of oneness with yourself, the world and the nature. By changing our lifestyle and creating consciousness, it can help in well being. Let us work towards adopting an International Yoga Day.

Sub: - Acknowledgement & Appreciation Letter for Volunteering Social Activities by Arya Institute of Engineering and Technology-Jaipur.

Dear Sir/Madam,

Your kind support for school meals of children can significantly transform their lives. The freshly cooked, hot, healthy, and locally palatable school meals provided by Akshaya Patra is a potential intervention in ensuring health and education of children. These meals are crucial for children belonging to challenging socioeconomic backgrounds.

Your Kind Support for Mid-Day Meal have

- Open the gates of school for children
- Boost their health with adequate nutrition
- Support regular schooling & ensure completion of education
- Prepare children to be assets of India

We therefore appreciate and recognize your contribution from your college and look forward you to keep serving for humanity and spirituality in coming years ahead.

Thanking you,

Yours in the service of underprivileged children

7. **Outcome of Activity:** AIDS, or Acquired Immunodeficiency Syndrome, is a complex illness with a wide range of complications and symptoms. AIDS is the final stage of HIV. When individuals reach this stage, they are at high risk for opportunistic infections due to their badly damaged immune system.

Many people who are HIV positive do not have symptoms of HIV infection. The virus can sometimes cause people to feel sick, but most of the severe symptoms and illnesses of HIV come from the opportunistic infections that attack the damaged immune system. It is also important to recognize that some symptoms of HIV are similar to common illnesses, such as the flu or respiratory infections. Signs and symptoms commonly seen in the early stages of HIV include: Fever, Chills, Rash, Night sweats, Muscle aches, Sore throat, Fatigue, Swollen lymph nodes, Ulcers in the mouth. Infected individuals can have the virus for up to 10 years, sometimes longer without showing signs or symptoms.

In this event give the awareness about the Aids protection through the Poster and Debate Competition.
